With vinyl transfers we can use distinctive materials for effects such as foil, flock, UV, sparkle and metallic. Vinyl is great for small volumes or even single items. Colour sublimation is a sophisticated process that is also ideal if you want small quantities, and results that last. Excellent for names and numbers.

Screen printing

Screen printing can be used on many different garments and items. This affordable and versatile technology allows us to print multi-coloured designs of your choice. It's an extremely cost-effective option if you wish to print medium and large quantities, and you can choose from a large selection of different types of inks. This method is popular with schools, promotions, clubs, tours and workwear.

Embroidery

Distinctive clothing that looks amazing, choose our high quality embroidery service. We can transform your artwork into a beautiful piece of embroidery, whether you wish to recreate a logo, image, or even text. Or, if you have an idea or image in mind, we can create it for you from scratch. Embroidery is the perfect option for items of workwear or sportswear. It can also make a memorable and lasting gift.
